

Title: LOGISTICS LEGEND

In a world of instant deliveries and global supply chains, one hero ensures that everything runs smoothly...

PAGE 1: THE LOGISTICS MASTER

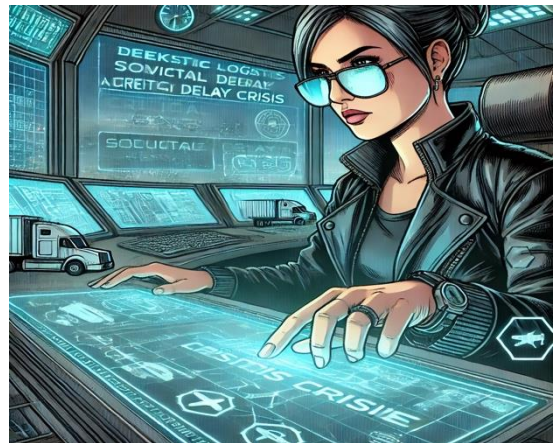

Panel 1: A massive futuristic logistics hub—autonomous trucks, drone deliveries, and robotic warehouses keep the world moving.

(Caption) The world relies on logistics.
And logistics relies on me.

Panel 2: Inside a high-tech control centre, YOU sit at a sleek command station, monitoring real-time shipments across the globe.

(You) “Alright, time to keep the world running.”

Panel 3: A red alert flashes on your holographic screen—CRITICAL DELAY: URGENT SHIPMENT STUCK!

(You) “Not on my watch.”

PAGE 2: CRISIS SOLVING

Panel 1: You analyze the problem—an AI-controlled cargo ship is stuck in a storm, delaying thousands of packages.

(You) “I need a backup plan—fast.”

Panel 2: You activate a fleet of drones and reroute shipments using underground Hyperloop's.

(SFX: BEEP! ROUTE ADJUSTED.)

(You) “Rerouting through the NeoPort Express. Problem solved.”

Panel 3: The cargo ship's delivery is now on schedule, and the screen turns green: SUCCESS!

(You) “Another supply chain saved.”

PAGE 3: THE FUTURE OF LOGISTICS

Panel 1: A factory receives its urgent materials just in time, preventing a major shutdown.

(Factory Manager) “Wow, that was close. Who pulled this off?”

Panel 2: Back at your control center, you sip coffee, watching as shipments move flawlessly across the world.

(You) “Just another day in logistics.”

Panel 3: A futuristic city skyline—drones in the sky, cargo trains below, and a giant holographic sign: “SUPPLY CHAINS POWER THE WORLD.”

(Caption) The world never stops moving... and neither do I.
